Portable Sick Leave Scheme

A. Important Definitions/Information

B. Sick Leave

Please note

Cover is only available for those workers where the employer has agreed and continues to pay the weekly premium contributions.

If a period exists where no premium contribution has been paid on your behalf then no cover will apply for such period.

Gaps in premium contribution payments will mean no cover.

Portable Sick Leave (PSL) cannot be accessed when unemployed.

Where back payments have been made after a claim has been submitted, the claim will not be considered. Weekly contributions must be current at the time of the injury/illness.

A. Important Definitions/Information

What is the Construction Industry Portable Sick Leave Scheme?

PSL has been set up to take over the sick days you would normally lose when you leave or are terminated by your employer.

How does the Portable Sick Leave Scheme work?

C IPL has purchased an Insurance Policy to cover any unused sick leave a worker has remaining at the time of termination of employment and where the employer member is paying the premium contribution to C IPL.

While you are working, your employer is responsible for any personal sick leave you may have accrued under the Enterprise Bargaining Agreement (EBA) system, but only to those benefits which relate to personal injury and/or illness leave of the worker.

On termination of your employment, your employer will send C IPL the number of sick leave credits you have remaining with them.

Please note

- It is important your employer complete the 'Detail of Employment Termination' form at the time of termination.
- C IPL cannot take over any unused sick leave for any period where the employer has not paid or is not paying the insurance premium contributions on your behalf.

B. Sick Leave

Provides cover to workers only, where the worker suffers an injury/illness in their leisure time and prevents a worker from working which:

- Occurs during the period of insurance, and
- Occurs outside working hours and when the worker is not engaged in any work whatsoever for remuneration, and
- Does not give rise to any entitlement to compensation under any statutory workers compensation scheme.

Sick leave benefits are payable whilst the worker continues to suffer disablement for the number of days accrued and recorded with CIPL.

Sick leave benefits are determined by the worker's pre-disability earnings, meaning the worker's normal weekly award rate of pay at the date of injury or the date on which the illness first manifested itself (as the case may be), and not greater than the worker's normal gross salary excluding bonuses and overtime payments.

The maximum days payable is 100 days. These days will lapse once the worker has not been employed for a continuous period of two (2) years with a registered CIPL employer or when the worker has permanently left the building and construction industry, whichever occurs first.

A worker cannot exhaust any portable sick leave days accumulated when the worker is on annual leave, bereavement leave, jury leave, maternity leave, paternity leave, parental leave or any other special leave the employer may grant.

A claim will only be considered once the worker has taken all available accrued sick leave entitlements with their current employer.

B. Sick Leave Cont.

Please note

- Casual employees are not covered under this program.
- Casual employees cannot access any days they may have accrued while employed as a permanent and have days recorded under the Portable Sick Leave Scheme.
- Your employer must be paying the applicable premium contributions on your behalf. If your employer is not participating, CIPL cannot take over your unused sick leave at the time of termination.
- Sick leave credits are accumulated at 1.85 hours per weekly contribution paid by your employer.
- Only a maximum of ten (10) days per year can be accumulated (where no days have been taken and the employer has paid the contribution for the full fifty-two (52) weeks).
- All weekly payments are gross. Tax has not been deducted. Please keep a record of all payments for tax purposes.
